

DISINFECT PRO

AEROSOL DISINFECTANT & DEODORIZER

DESCRIPTION

DISINFECT PRO is an EPA registered hospital grade disinfectant, deodorizer, and antimicrobial agent designed specifically to eradicate a wide variety of bacteria, viruses and other microorganisms. For HVAC applications, it is ideal for controlling mold and mildew that grow on and around evaporator coils and in ductwork, deodorizing these areas to help eliminate dirty sock syndrome. Disinfect Pro is designed to sanitize and disinfect any hard, non-porous surface and leaves a light and pleasant citrus scent behind.

FEATURES AND BENEFITS

- Virucidal
- Bactericidal Pseudomonicidal
- Tuberculocidal
- Staphylocidal Sanitizes Fabric and Leather
- Fungicidal
- Controls Mold and Mildew
- Viricidal against HIV-1 (AIDS Virus), Herpes Simplex 1 & 2, Avian Influenza A virus (H5N1), H1N1 Influenza A virus
- *Bactericidal against Escherichia coli, Pseudomonas aeruginosa, Salmonella enterica, Methicillin-resistant Staphylococcus aureus (MRSA) and more
- Tuberculocidal against mycobacterium tuberculosis bovis BCG (tubercle bacilli)
- Fungicidal against trichophyton mentagrophytes (athlete's foot)
- USDA approved for us in Federally Inspected meat/poultry plants

LABEL INFORMATION

DISINFECT PRO is an effective Virucide, Bactericide, Tuberculocide, and Fungicide on hard nonporous surfaces when used as a disinfectant. This product has demonstrated effectiveness on precleaned, hard nonporous surfaces against a variety of microorganisms.

DISINFECT PRO can be used in many settings like hospitals, nursing homes and other community living centers, schools, daycares, libraries, laboratories, hotels, motels, cafeterias, restaurants, offices, veterinary facilities, gymnasiums, locker rooms and more. It has many applications in a variety industries and environments: commercial, industrial, institutional, medical, residential facilities and on equipment and vehicles.

A WARNING: This product can expose you to 2-Phenylphenol, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

First Aid Measures

Inhalation: Move to fresh air. If breathing is difficult, administer oxygen. If not breathing administer oxygen. Seek medical attention if you feel unwell. Skin Contact: Wash thoroughly with soap and water. Seek medical attention if irritation persists.

Eye Contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention if irritation persists.

Ingestion: Rinse mouth. Do NOT induce vomiting. Seek immediate medical attention.

Precautions

Do NOT handle or use this product until all safety precautions have been read and understood. Keep away from heat, sparks, open flames, and hot surfaces. -No smoking. Do not spray on an open flame or other ignition source. Wash hands thoroughly after handling. Wear eve protection.

Storage

Keep out of reach of children. Protect from sunlight. Store in a well ventilated place. Do not expose to temperatures exceeding 50°C/122°F.

In Case of Fire

In case of fire, use carbon dioxide, standard chemical fire extinguisher, and water fog. Wear NIOSH approved Self Contained Breathing Apparatus with a full face piece operated in a positive pressure demand mode with full body protective clothing when fighting fires. Avoid contact with skin and breathing smoke, fumes, and decomposition products. Cool fire exposed containers with water fog.

DISINFECT PRO

AEROSOL DISINFECTANT & DEODORIZER

LABEL INFORMATION

GENERAL DIRECTIONS: Shake container well before each use and hold it upright while spraying. For use on precleaned, hard nonporous surfaces; not for use on humans or animals. Not for use where food or related products are prepared, processed or stored. Remove food or related products from the area being treated. Avoid use where product would contact counters or tabletops where food may be stored, prepared or processed. Do not use on waxed/polished surfaces, water-based "latex"paint, shellac, cellulose (such as rayon) or other alcoholsensitive materials.

DISINFECT HARD, NON-POROUS

SURFACES: Preclean surfaces as directed above. Hold container upright about 6-8" from surface. Spray to thoroughly wet hard, nonporous surfaces. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Rinse all surfaces that come in contact with food such as counters, appliances, tables with potable water. Do not use on utensils, glassware, and dishes. Before use in federally inspected meat and poultry plants, all food products and packaging materials must be removed or carefully protected before disinfection.

DISINFECT TOILETS AND URINALS:

Remove gross filth prior to disinfection. Empty toilet bowl or urinal. Hold container upright about 6-8" from surface. Spray to thoroughly wet hard, nonporous surfaces. Brush over exposed surfaces and under the rim. Allow to stand for 10 minutes, then flush.

CLEAN/DEODORIZE: Hold container upright about 6-8" from surface. Spray surface and allow to air dry.

VETERINARY OFFICES, ANIMAL AREAS AND ANIMAL LABORATORIES: Remove all animals and feed from premises, vehicles, cages, kennels, etc. Remove all litter, droppings, and manure from floors, walls, and surfaces of facilities occupied or traversed by animals. Empty all feeding and water appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Hold container upright about 6-8" from surface. Spray to thoroughly wet hard, nonporous surfaces. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Immerse all halters, collars, leashes and other types of equipment used in handling and restraining animals as well as forks, shovels, and scrapers used for removing litter and manure. Ventilate buildings, vehicles, and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub feeding and watering equipment with soap or detergent, and rinse with potable water before reuse.

CONTROL MOLD/MILDEW AND SANITIZE POROUS SURFACES: Inhibits the growth of Apergillus niger and Penicillium glaucum fungi and controls Staphylococcus aureus and Klebsiella pneumoniae on porous surfaces such as fabric and leather surfaces. Hold container upright about 6-8" from surface. Spray to thoroughly wet surfaces. Treated surfaces must remain wet for 5 minutes. Allow surfaces to air dry. For mold/ mildew control, repeat application every 7 days or more frequently if new growth appears.

TO KILL HIV-1 (Human Immunodeficiency virus Type 1; AIDS virus) ON PRECLEANED SURFACES/OBJECTS in health care or other setting with inanimate environmental surfaces/objects associated with the potential for transmission of HIV-1 and likely to be soiled with blood/body fluids, follow these additional SPECIAL INSTRUCTIONS FOR **CLEANING AND DECONTAMINATING** AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: **PERSONAL PROTECTION - Barrier protection** items such as disposable latex, gloves, gowns, masks and eye coverings must be worn when handling items sold with blood/ body fluids. CLEANING PROCEDURE -Blood/ body fluids must be thoroughly cleaned from surfaces/objects before application of this product as a disinfectant. CONTACT TIME - 10 minutes. DISPOSAL OF **INFECTIOUS MATERIALS - Blood/body fluids** and other materials removed from or used to clean surfaces/objects must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.
